The Awakening Circle

By Basu Rimal

Author's Message: Peace & Connection

Peace is the natural state of the soul.

Connection is the invisible thread that binds all living beings.

Through this book, I offer a vision - that true transformation begins not from outside, but from within.

When we awaken the energy of connection with awareness, silence, and love, peace becomes not just a feeling - it becomes our reality.

Let this journey inspire you to listen deeply, connect fully, and walk gently in light.

Chapter 1: Inner Light

Within every human lies a divine source of energy, waiting to be awakened. When we begin to feel beyond our physical senses, this light starts to shine. This light is the true essence of the soul - rooted in love, compassion, and peace.

Chapter 2: Silent Communication

There is a way of connection beyond speech - through silence, body posture, emotion, and chanting. Souls recognize each other in silence. The energy flowing from heart to heart becomes the real communication. This silent exchange touches the deepest layers of the soul.

Chapter 3: Soul Connection

When two souls meet with all veils removed, there is a vibration, a flow of energy that transcends worldly interaction. Such a connection brings internal transformation - it dissolves fear, births love, and elevates consciousness.

Chapter 4: Direction of Energy

Energy flows where attention goes. With concentration, we use our inner power to create healing or harm in relationships - the choice is ours. Positive thoughts, love, and compassion give divine direction to energy.

Chapter 5: Physical Reflection of Connection

Deep soul connections can change even our physical appearance. When a connection is strong, it impacts the face, the voice, and the body. Spiritual love brings glow to the face, peace in the voice, and lightness and flexibility to the body.

Final Chapter: The Awakening Circle

All connections form a sacred circle - where the soul returns again and again until it learns to live in balance, love, and divine awareness. This circle is the cycle of life, the journey of the soul, and the path to unity with light.

Song: A Voice Beyond Words

Verse 1

I closed my eyes, and the stars came near,
In silence, you appeared so clear.
No words were needed, no time, no space -
Just a sacred place from heart to heart.

Chorus

You are the voice beyond words,
The light within my breath.
In every thought, in every ache,
You reach the place where lies can't stay.

Verse 2

Your energy flows like a river,

Entering softly through the holes of dreams.

When I am quiet, you awaken,

And my soul flies in your rhythm.

Bridge

Now there's no distance, no walls remain,

Only melodies tied in the music of soul.

If we could see with our inner eyes,

We'd know - we were never really apart.

Final Chorus

You are the voice beyond words,

Buried with truth and love.

And as we walk this sea of light,

You walk from within me - always.

Song: We Are the Light Travelers

Verse 1

We are the light travelers, flying soul to soul,

No wings we hold, but we are whole in energy.

We feel before we speak,

We understand before we see, crossing the skies of silence.

Chorus

Time or space cannot bind us,

We flow in love, we move in beauty.

Crossing galaxies, holding unseen threads,

We are that word the soul once spoke.

Verse 2

We chant in silence, we sparkle in thought,

Every connection holds our truth.

Those who feel deeply with the heart,

We come there, healing pain time forgot.

Final Chorus

We are the light travelers, unseen by eyes,

Born of stars, never really saying goodbye.

We live in the void, we shine in night's glow -

Remember us, we are the light.
